QUALITY BY DESIGN

RAL Colour Chart

The Colour Chart and Bespoke Colour Options

The Polyframe RAL Colour Chart is the complete guide to the spray colours available on all our Rehau and WHS Halo products. Included within this guide are representations of some of the colours available.

As part of Polyframe's ongoing improvement programme we have invested heavily in new technology which allows us to spray paint white or white woodgrain Foiled Profiles.

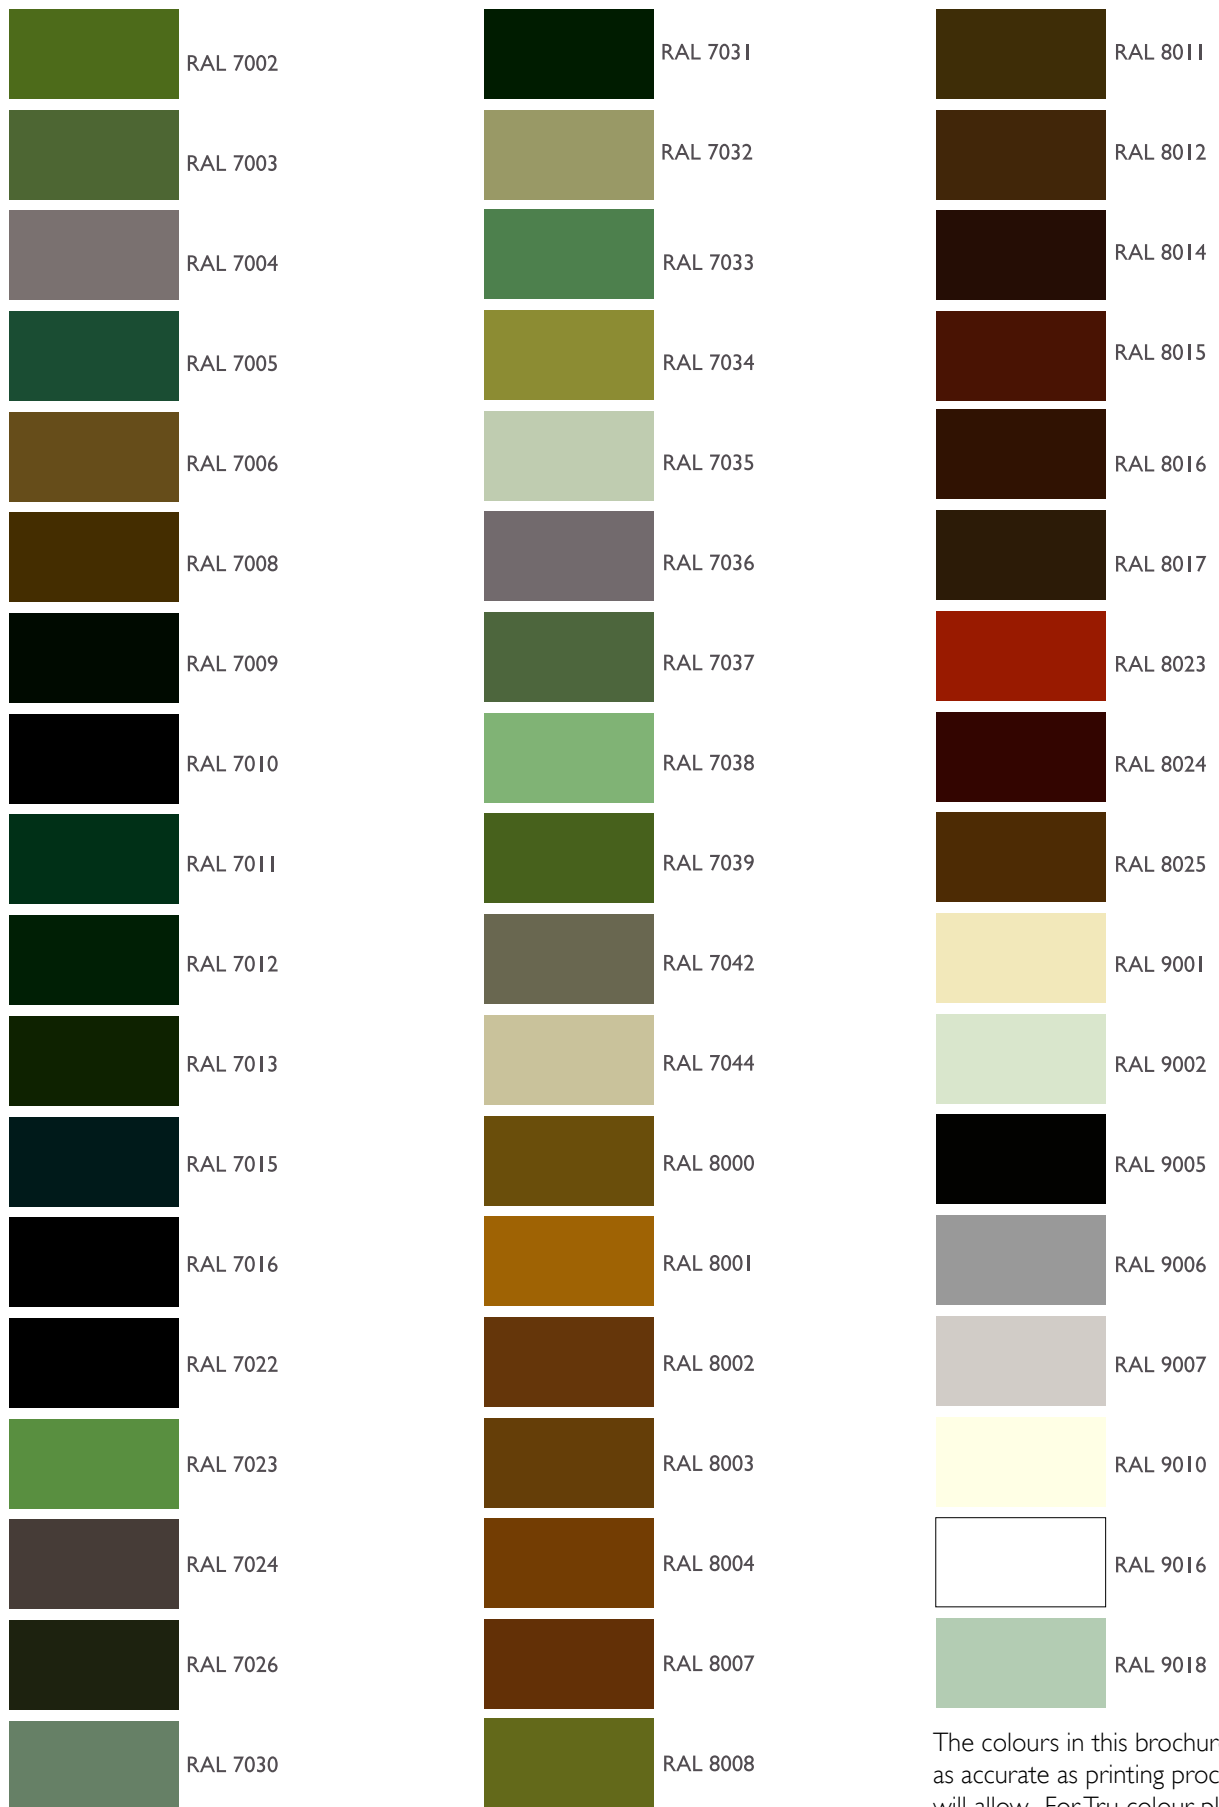

This new facility will enable you to offer your customers truly bespoke windows and conservatories in any RAL colour. The system also comes with a guarantee against peeling, cracking or fading.

With a fast turnaround and in excess of 200 colours to choose from the Polyframe Bespoke Colour option opens up a whole new world of design choices as well as flexibility and ease of use for you and your customers.

**Although care has been taken to ensure these colours are a close representation, the printing process does affect the colour authenticity. For an exact match please refer to an official RAL Colour Chart.*

	RAL 1000		RAL 1027		RAL 3020		RAL 5019		RAL 6014
	RAL 1001		RAL 1028		RAL 4004		RAL 5020		RAL 6015
